## AGILE 2 SF

Surf reel of proven quality, ideal for those already into surfcasting and for beginners alike.

Made in ultra-lightweight, corrosion-resistant graphite.

8 bearing technology:

- 1 infinite anti-reverse bearing .
- 7 ball bearings.

Worm shaft gear oscillation system.

Progressive micro-adjustable waterproof drag system. Balanced rotor.

Line anti-twist system.

Oversized line guide.

Extra thick pick up.

Machined aluminium handle with rubber grip.

Special SMOOTH SURF CASTING COMPETITION XS (Extra-Shallow) aluminium spool.

Spare aluminium spool STANDARD ST capacity.

Micro-perforation for knot-free line winding."

## SLOW DEEP

Powerful, high capacity reel for bottom fishing, featuring a slow retrieve ratio to gain power when you get a successful bite.

Made in ultra-lightweight, corrosion-resistant graphite. Aluminium machined spool with multi-perforations for minimum weight. Rubber band in the centre of the spool to prevent the braided line from slipping. Machined aluminium handle with over-sized EVA grip. 9 bearing technology: 1 infinite anti-reverse bearing and 8 stainless steel bearings. Micro-adjustable front drag. BRS balanced rotor system. Oversized line guide. Extra thick pick up.

## BAHAMAS

Powerful, high capacity reel for deep sea fishing.

Made in ultra-lightweight, corrosion-resistant graphite. Aluminium machined spool with multi-perforations for minimum weight. Aluminium folding handle with over-sized grip. 8 bearing technology: 1 infinite anti-reverse bearing and 7 stainless steel bearings. Micro-adjustable front drag. BRS balanced rotor system. Oversized line guide. Extra thick pick up.

## MERGAL

Compact reel but with incredible drag power thanks to its ultra low gear ratio.

Made in ultra-lightweight, corrosion-resistant graphite. Aluminium machined spool with multi-perforations for minimum weight. Rubber band in the centre of the spool to prevent the braided line from slipping. Machined aluminium handle with over-sized EVA grip. 7 bearing technology: 1 infinite anti-reverse bearing and 6 stainless steel bearings. Micro-adjustable front drag. BRS balanced rotor system. Oversized line guide. Extra thick pick up.
