STARTER

Lightweight reel with aluminium spool, at an unbeatable performance and price.
Made in corrosion-resistant graphite.
2 bearing technology: 1 infinite anti-reverse bearing and 1 ball bearing.
Spring-loaded micro-adjustable front drag.
Balanced rotor. Oversized line guide.
Aluminium spool.

HEAVY KILLER

Sinking jerkbait with a high specific weight and powerful lip design. Perfect for fishing from high rocks, as it clings strongly to the water. Ideal when the fish are active. For fast retrievals, its pronounced wobbling includes sudden skidding as the pressure drops, driving voracious predators wild...

EDGE 140

Powerful sinking minnow with great castability to reach places unreached by others. It features a marked wobbling action, ideal for handling with rapid jerks interspersed with small stops.

SABA 120

This heavy, corpulent, fast sinking minnow will allow you to cast to places where others cannot reach. Its rapid, almost horizontal drop will allow you to seek fish at any depth. Ideal for rapid jerking with small pauses in between.

PHELMAN

This small minnow with great castability is ideal for enticing even the wariest large fish. After quickly dropping to the water layer where the fish are located, its vibrant, nervous movement rapidly gets the fish to bite.

105/140

FEEDEX
120/150

MULATO

GFM 90/105

This chubby topwater features a nervous, tight walking action. At rest it stays with its head above water, responding almost instantly to the demands made by the angler's rod. Perfect for tempting bass and deadly for enticing sea bass in estuaries and river mouths...

FCM 105/140

Walker with impressive casting, thanks to its shape and weight distribution. Its "walking-the-dog" is obedient, promptly responding to even the lightest jerks of the rod. Its swimming action, depending on the speed and movement of retrieval, varies from walking, to splashing to sliding. An irresistible bait for predators.

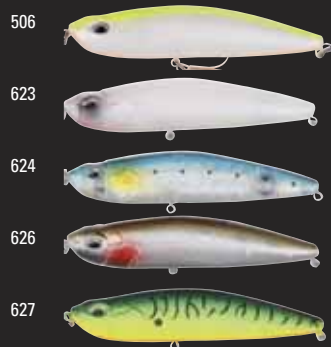

FEEDEX 120/150

Heavy Popper with a great launching capacity, even in adverse conditions. During normal and slow retrievals, it displaces a large amount of water and is perfect during pauses, with the stern sunk down. For rapid retrievals, it is submerged just below the surface, making it perfect for calm, sunny days when fish pursue surface lures without attacking them ...

MULATO

A small pencil lure with internal steel ball compensation. Featuring a truly spectacular casting performance, achieving distances that no other lure of its size can reach, right where the fish are to be found ... Its action is a mixture of slalom and tight walking, capable of deceiving bass and small tuna alike, and even large trout and pike. Just amazing!

COBET 175P

ASESINO 140P

IKARI 110

PIKE WALKER 200

PICADOR

COBET 175P

-Long floating minnow, featuring a weight transfer system based on a dual internal piston. Its powerful casting capacity, even with head-on winds, accompanied by a slightly forward wobb-roll action, makes it an excellent sea bass lure.

ASESINO 140P

This jerk minnow features a streamlined body and internal mobile piston, stabilised by a coil spring. Really powerful casting thanks to the movement of the piston by inertia towards the tail. Movement during line retrieval is instantaneous thanks to the return of the piston to its original position, pushed by the spring. Perfect, rapid wobb-roll action during line retrieval. Fishing made easy.

PIKE WALKER 200

This powerful, jointed swimbait with a vinyl paddle tail is set to delight large bass anglers, for use on days of little activity. Its lifelike action and the vibration produced by its soft tail make it highly attractive.

IKARI 110

A lightweight walker with an extremely streamlined body. Tight walking action right from the first twitch of the rod. Ideal for basses.

PICADOR

A stylised, heavy weight pencil lure, with a precise and impressive casting power. Correct handling involves rapid jerking during retrieval, alternating with short pauses ... and get fishing! Sea bass, small tuna, barracuda... no fish can resist the Picador's erratic slalom swimming action.

MIRAGE 95SU

DOKKER 110

CAMEL 110SU

PAPOTE 110

MIRAGE 95SU

A medium-sized jerkbait set to delight predator fish anglers. Thanks to its life-like appearance and suspended action, a few short jerks, accompanied by 2 to 3 second breaks, will provoke ferocious attacks.

DOKKER 110

Jerkbait with a stylish design. Featuring a rear double propeller, creating a wake of bubbles which attract and irritate predators, ending in a ferocious strike. Thanks to its stabilisation, can be handled in all kinds of ways, depending on needs and what the fish are doing at any given moment in time... really deadly.

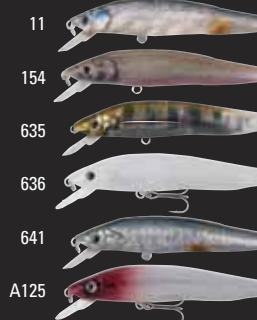

CAMEL 110SU

Suspending jerkbait offering spectacular casting and a frantic swimming action. Leave it motionless, suspended in mid-water for a few seconds, then give a sharp tug to awaken the predatory instinct of even the most wary bass.

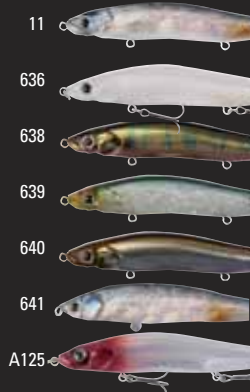

PAPOTE 110

This "insolent" walker makes for long casting, featuring moderate walking in "tiki-taka" retrievals and a good subsurface sliding action in longer jerks. Perfect for tempting elusive sea bass in calm waters or estuaries and river mouths.

AYU 93

Lightweight, streamlined jerk bait with an outstanding casting distance thanks to its internal ball weight transfer system. Rapid rolling accompanied by a slight rear wobbling, making it irresistible. Perfect for finesse fishing in the Mediterranean.

VALIENTE

Suspending minnow covering a broad range, perfect for freshwater and saltwater predators alike. Good castability and perfect roll-wobbling even during lineal retrieve.

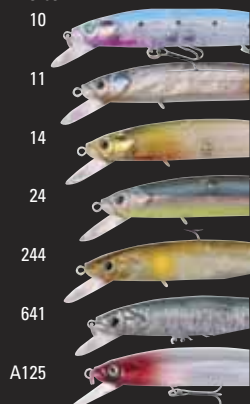

MONTERO

This floating Slim is stunningly effective for sea bass. Its streamlined, stylized shape and internal magnetic system make for spectacular casting. Its swimming action is dominated by a very fast, tight rolling motion. It can be handled just as well at low and high retrieval rates.

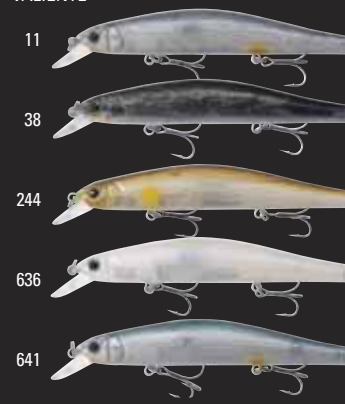

BANDERAS

An awesome, heavyweight Jerk-Minnow with a powerful lip. Its three-ball transfer system and over-weighted tail, allow for spectacular casting even on windy days. Highly pronounced wobbling motion and slight rolling. An excellent lure for fishing bass in the autumn.

ANTICO 85

Small floating minnow for light spinning enthusiasts. Thanks to its streamlined shape and the optimal distribution of its internal counterweights, it can be cast over great distances. Marked rolling and slight wobbling during lineal retrieval, this can be improved with small jerkings and irregular stops.

CIMARRON

Swimming fish with a large, powerful lip, perfect for medium and high speed trolling in deeper waters. It's rigged with strong 4X hooks, secured to a reinforced steel rod that goes from one end of its body to the other, designed to withstand the onslaughts of the bullies...

CAPOTE

This round-bodied, classic popper is specifically designed for fishing leier fish, chovas, sea bass and other predators, although it can also be successfully used for catching large pike. This heavy weight lure features an outstanding casting distance and creates havoc once in the water, with incredible splashing and bubbles in response to the jerking action of the rod, immediately getting the attention of all nearby predators.

GITANA

This aggressively shaped floating Minnow, with the lip integrated into the head, offers a highly realistic behaviour and swimming action.

BAILON

PAKOTE

POPI 60

CRUZ 70

NINO 85

BAILON

Small, round articulated crank with nervous movements, perfect for attacking wary bass near the water edge. Its body shape and articulation give it a swimming action that is sure to attract predators.

PAKOTE

Who hasn't got a small sized traditional popper in their Bass lure box? Perfect for those summer days in which the fish are wary of your lures.

POPI 60

This small popper is capable of moving a good amount of water during its "splashing action", drawing bass from far away.

At rest, it lies practically horizontal with a slight sinking of its tail, responding immediately to the angler's jerking.

NINO 85

Powerful crank bait featuring a strong, long lip, specifically designed for catching large fish hidden on the bottom. Although bulky, this crank bait is quite nimble and with a lot of traction, so it needs to be used with powerful, softrods.

CRUZ 70

Robust crank featuring a great lip to entice bass and pike positioned in deep zones. Almost rectilinear movement with a good rolling action and the lip slightly tilted downwards.

HARD LURES

Yokozuna
FISHING

MAD TAIL 90

This jerk's asymmetrical, rotating tail creates a turbulence that drive fish crazy. Working it as a walker, it moves just right, but made even more attractive thanks to the turbulence created by its tail. During line retrievals it slides and turns below the surface, just like a whirlwind.

FLANAGAN 115F

A nice looking jerkbait that is really easy to cast thanks to its internal steel balls. During line retrieval it has a marked wobb-roll action and its interior balls produce a very attractive sound. Perfect for stop-and-go retrieves.

LOCO 90

This minnow has a long, powerful lip that gives it a very special swimming action, with a marked rolling movement accompanied by a good wobbling and with its head facing downwards. Its mid-water positioning is perfect for working it with a stop-and-go movement.

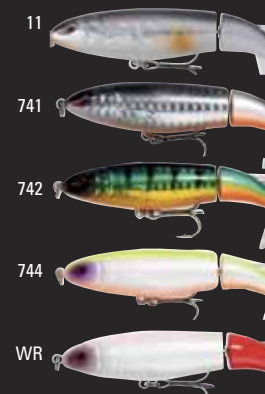

P-FROG

Frog-shaped popper, perfect for drawing out bass from their favourite hiding places. Handle it with long, continuous jerks of the rod, occasionally accompanied by stops for a few seconds.

PERLA

This small floating minnow features a very enticing rolling action combined with moderate wobbling, capable of bringing the best trout out of hiding. It is also very effective with bass and pike, and even tempts barbel...

CRAB

PIKIE

PALIPES

TWIN TAIL

CRAB

Realistic imitation of a small crab, exceedingly effective with even the wariest of bass. The vibrations of its antennas and claws make it irresistible. Pre-shaped belly to make rigging easier.

PIKIE

A twist on the traditional vinyl, but with improved textures and colours. Presented in display boxes.

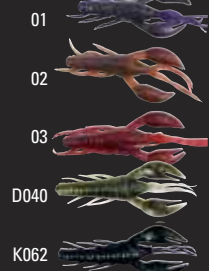

PALIPES

Imitation of crabs with soft legs that produce some incredibly attractive vibrations for basses. For perfect movement, give small jerks with the rod tip. Ideal for jig head and Texas rigs.

TWIN TAIL

A small vinyl fish with its belly open to facilitate the mounting of Carolina rigs or jigs. Its forked tail has is designed for Finesse fishing. A perfectly balanced body, ideal for Drop Shot fishing.

FISHING

GRUB

ABUS TWIN

TWIN GRUB

DENVER

BINDER

GRUB

Grub with an unbeatable swimming action. Its light body and fine, touch-sensitive tail give it a highly realistic movement. Highly resistant to pulls from predators.

TWIN GRUB

Double grub with a magnificent swimming action from its two moving tails. Highly realistic action thanks to its fluted body.

DENVER

This extra-soft, scented, vinyl shad minnow perfectly imitates the erratic swimming action of a scared bait fish. Its paddle tail with long stem, which is flat underneath, makes it wiggle frantically, to produce vibrations that are irresistible to predators.

BINDER

Soft vinyl fish with an incredible realistic swimming action, imitating feeding fish. Perfect for Texas, Carolina rigs or with jig heads.

ABUS TWIN

Featuring the same characteristics as the Abus series, but with a natural forked tail for Finesse fishing. Translucent body and highly realistic finish.

SWIM FISH

X-SAND

NIKO

CONTINENTAL

KERMITT

SWIM FISH

Powerful rigged vinyl swimbait, with a reinforced, weighted interior structure. Its body shape and paddle give it a completely life-like swimming action, even at low line retrieval, ready to tempt the large sea bass and pike.

NIKO

Vinyl minnow with lip and jointed body. Combining the advantages of hard fish and vinyl fish, to create a life-like lure which is highly effective for all types of predators. The realistic colours and holographic eyes make it even more irresistible.

X-SAND

Evolution of the mythical Saneel with new colours and sizes, even more effective against sea bass. Great casting capacity and suggestive movement.

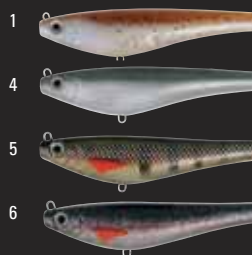

CONTINENTAL

This "friend" of the sea bass, designed with an ultra-soft vinyl and an over-sized paddle, wriggles its tail in a way that makes it irresistible to predators of all types.

KERMITT

This classic frog-shaped hollow bait perfectly imitates the surface movement of the batrachians. You'll get excellent results in enclosed areas with abundant aquatic vegetation where it's really difficult to fish with other lures.

METAL LURES

Yokozuna
FISHING

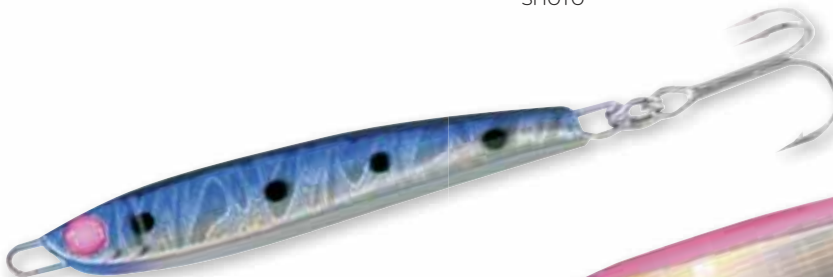

The Yokozuna family of jig cast lures comprises small versatile jigs with a range of shapes and weights, perfect for on-shore and on-board fishing.

Suitable for vertical or drifting light jigging or spinning.

Its erratic, nervous swimming action is ideal for catching bass, small tuna, mackerel and other marine predators.

SHOTO

KYU

ISSHI

KYU

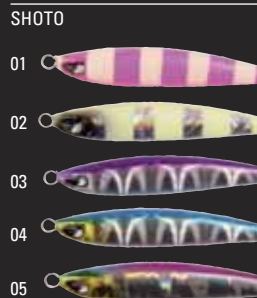

Asymmetrical with an exceedingly erratic swimming action!

SHOTO

Small, heavy and a fisher!

ISSHI

Its name says it all: a real arrow!

KABURA

Really effective bait for slow jigging fishing. Compared to traditional jigging, this easy-to-use, comfortable technique means that an increasing number of anglers are going over to slow jigging.

CHISPA

Round-bodied, asymmetrical jig-cast rigged with a double assist hook in the front. Its colors and reflections make it perfect for attracting sea predators in drop shot fishing or casting.

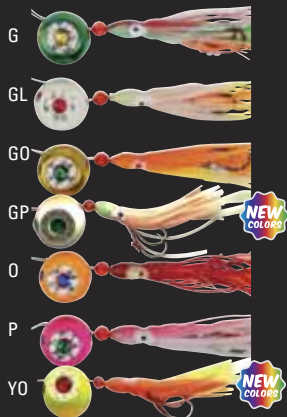

CASTER

Armed to the teeth!

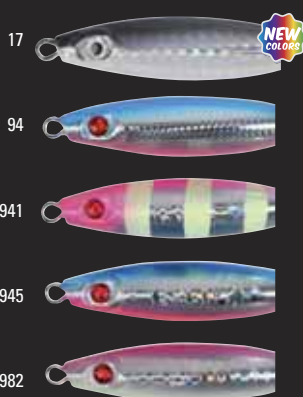

SUBERU

Great casting power and really shiny "fringe".
