EVIA

A TRUSTWORTHY CLASSIC

Over 75 years experience in producing spinners makes EVIA a reference in this type of artificial bait.
Material selection and the most detailed finishes have gained EVIA spinners recognition and prestige, and are a guarantee of quality when used in all manner of fishing conditions.
Our spinners are a classic in fishing boxes and baskets. Their design and quality finish in the most ideal weights for each situation, provoke vibrant movements when bringing in the line, generating an action in the water that is extremely attractive for large predators. Be it their plain, painted, holographic, or hammered, etc.
Finish, they always imitate their natural cousins, the fish, with great realism.

Packaging:

BAG: 5 PCS

BLISTER: 1 PC

DOTTY MAX MOD. 11M

An incredible swimming spinner, thanks to its many technical details, that will help you catch trout and other predators from your first outing.
Asymmetrical central leaded body that gives it great stability in the current and makes it easy to turn the blade as soon as it hits the water. The upper part of the shaft is finished with a small integrated swivel swivel that limits the twisting of the line, avoiding the always annoying curls. The hook is mounted on an open ring, which makes it easy to replace the hook or to change from treble to single hook and vice versa.

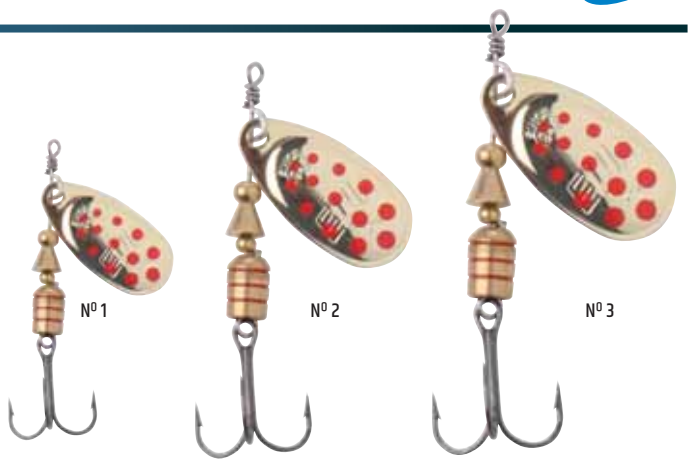
SIMPLE HOOK

DOTTY MOD. 11

Narrow bladed spinner configuration for super-attractive swimming in a variety of medium to strong current fishing scenarios.
Blade with the ability to generate movement away from the axis in medium currents and grouped to the body in strong currents, without losing its high rotational capacity. It is specifically recommended for salmonids such as trout and sea trout. It can also be used to fish for pike or bass in lakes or marshes during the summer season.



BAG: 5 PCS. Price per spinner.

MINNOW MOD. 11 BIS

Spinner with narrow blade for a super-attractive swimming, together with the effectiveness of a soft fish imitation lure.
Blade with the ability to generate movement away from the axis in medium currents and grouped to the body in strong currents, without losing its high rotation capacity. Perfect for big trout and specifically recommended for fishing for pike, perch, pike-perch or bass in lakes or marshes.

BAG: 5 PCS. Price per spinner.

COE MOD. 12/12F

The ultimate spinner for all types of scenarios.
Its great mechanics with an ovoid-shaped blade makes it turn quickly as soon as it hits the water. A very versatile spinner, whether you fish in slow currents or if you want to retrieve line at higher speeds. The spinning of its blade will adapt to any type of retrieve without failure, allowing us to use it as a wild card bait for all types of salmonids such as trout and sea trout.

POPPER MAX MOD. 15M

Heavy spinner for long casts or fast deep runs in fast-flowing rivers or strong currents.
Tapered blade shape with super-attractive texturing and eye that quickly adapts to the required spinning speed. Asymmetrical central leaded body provides great stability in the current and makes it easy to turn the blade as soon as it hits the water. Its brilliant hydrodynamics will allow you to "stand up" in the current of large pools while your paddle turns without stopping.

BLISTER: 1 PC. **Price per spinner.**

ASPEN MOD. 13 / SUNSHINE MOD. 13B

Ideal spinner for fast-flowing rivers and large currents.
Its olive leaf-shaped blade and its greater weight compared to other models will allow us to fish with total guarantee even in turbulent waters. In lakes and marshes, the constant vibrations of its blade will attract predators that are not very active on the bottom.

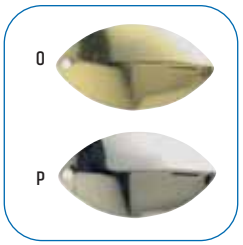
PIKE MOD. 14M

Excellent spinner for pike and big perch.
Double-sided blade that generates extreme vibrations even with slow movements, favouring the attack of inactive pike. We can work it both in linear and sawtooth retrieve, where it will give us its maximum effectiveness. Its red wool reed creates an irresistible signal for all predators. It works well even in winter, when there is not much cover in the water.



REF.			€
H14M*	12	O, P	3,40

1 12

EVY MOD.16

Excellent super-attractive ripple spinner for predators.
Multi-faceted and detailed engraved blade, which makes the light reflect in endless shimmers, alternating with erratic ripples and lateral deflections, imitating a wounded grass fish. Its double curve maintains the stability of these movements, whatever your swimming speed: slow, normal or fast. Perfect for fast, wide-ranging and still water prospecting, as well as for fishing in sustained currents. Mounted with a swivel swivel swivel on the line attachment ring to avoid the always annoying curls.

MACK

Der ideale Spinner zum Angeln auf Barsch, Makrele, Nadelfisch oder Seelachs.
Er ist mit einem glatten Blatt erhältlich, bei dem das Licht mit einer kontinuierlichen Helligkeit reflektiert wird, oder mit einem geschuppten Blatt mit mehreren Facetten, bei dem das Licht in unzähligen Helligkeiten reflektiert wird. Sein wellenförmiges und rotierendes Schwimmen macht ihn für Meeresräuber unwiderstehlich. Er kann auch als Endköder an einer Maschinenpistole und an einer Schleppangel als Einzelköder verwendet werden. Er hat ein Anti-Rotations-System in seinem Ring, das die immer lästigen Locken verhindert.

FLUID ACCESSORIES

A set of EVIA fluids to make a fisherman's life easier:

- High quality oil to lubricate the fishing reel bearings or other mechanical items.
- Rod cleaning fluid, specifically designed to remove the salt and dirt from the crucial parts of the rod, for durability, and also to clean the rings and rod spigots.
- Line protector fluid for enhanced line durability and to reduce the friction with the rings when casting and retrieving.

Containers of 12 ml supplied in boxes of 25.
