## HEAVY KILLER

Sinking jerkbait with a high specific weight and powerful lip design. Perfect for fishing from high rocks, as it clings strongly to the water. Ideal when the fish are active. For fast retrievals, its pronounced wobbling includes sudden skidding as the pressure drops, driving voracious predators wild...

## EDGE 140

Powerful sinking minnow with great castability to reach places unreached by others. It features a marked wobbling action, ideal for handling with rapid jerks interspersed with small stops.

## SABA 120

This heavy, corpulent, fast sinking minnow will allow you to cast to places where others cannot reach. Its rapid, almost horizontal drop will allow you to seek fish at any depth. Ideal for rapid jerking with small pauses in between.

## SABA ULTRA-H

The ultra heavy version of the Saba, for long-distance casting in deep places. Thanks to its tremendous weight, it casts like a sinker so you will need to use it with powerful spinning rods for maximum performance.

## GFM 90/105

This chubby topwater features a nervous, tight walking action. At rest it stays with its head above water, responding almost instantly to the demands made by the angler's rod. Perfect for tempting bass and deadly for enticing sea bass in estuaries and river mouths...

## FCM 105/140

Walker with impressive casting, thanks to its shape and weight distribution. Its "walking-the-dog" is obedient, promptly responding to even the lightest jerks of the rod. Its swimming action, depending on the speed and movement of retrieval, varies from walking, to splashing to sliding. An irresistible bait for predators.

## FEEDEX 120

Heavy Popper with a great launching capacity, even in adverse conditions. During normal and slow retrievals, it displaces a large amount of water and is perfect during pauses, with the stern sunk down. For rapid retrievals, it is submerged just below the surface, making it perfect for calm, sunny days when fish pursue surface lures without attacking them ...

## MULATO

A small pencil lure with internal steel ball compensation. Featuring a truly spectacular casting performance, achieving distances that no other lure of its size can reach, right where the fish are to be found... Its action is a mixture of slalom and tight walking, capable of deceiving bass and small tuna alike, and even large trout and pike. Just amazing!

10

RADARK

ASESINO XP

IKARI 110

PICADOR

## RADARK

This sleek but powerful jerk-minnow has good castability even on windy days, thanks to its ball weight transfer system. It has a nice wobbling action accompanied by pronounced rolling. Ideal for autumn sea bass.

## ASESINO XP

NEW!

Slim-bodied jerkbait with a short but powerful lip.Thanks to its internal spring piston, you'll get exceptional casting distance with both the floating and sinking versions. The swimming action is dominated by a fast, tight rolling motion with a slight wobble, making it a lethal enemy for elusive sea bass.

## IKARI 110

A lightweight walker with an extremely streamlined body.
Tight walking action right from the first twitch of the rod.
Ideal for basses.

## PICADOR

A stylised, heavy weight pencil lure, with a precise and impressive casting power. Correct handling involves rapid jerking during retrieval, alternating with short pauses ... and get fishing! Sea bass, small tuna, barracuda... no fish can resist the Picador's erratic slalom swimming action.

## MIRAGE 95SU

A medium-sized jerkbait set to delight predator fish anglers. Thanks to its life-like appearance and suspended action, a few short jerks, accompanied by 2 to 3 second breaks, will provoke ferocious attacks.

## DOKKER 110

Jerkbait with a stylish design Featuring a rear double propeller, creating a wake of bubbles which attract and irritate predators, ending in a ferocious strike. Thanks to its stabilisation, can be handled in all kinds of ways, depending on needs and what the fish are doing at any given moment in time... realy deadly.

## PAPOTE 110

This “insolent” walker makes for long casting, featuring moderate walking in “tiki-taka” retrievals and a good subsurface sliding action in longer jerks. Perfect for tempting elusive sea bass in calm waters or estuaries and river mouths.

## AYU 93

Lightweight, streamlined jerk bait with an outstanding casting distance thanks to its internal ball weight transfer system.
Rapid rolling accompanied by a slight rear wobbling, making it irresistible.
Perfect for finesse fishing in the Mediterranean.

## VALIENTE

Suspending minnow covering a broad range, perfect for freshwater and saltwater predators alike. Good castability and perfect roll-wobbling even during lineal retrieve.

## SPIRE 98SP NEW!

A medium-sized, wide-spectrum suspended minnow, ideal for fishing bass with a stationary lure.
Despite its light weight, it has good casting ability and ideal roll-wobbling, even when retrieved in a straight line.

## PIRATA

Floating slim minnow.
This "Bass hunter" has an aerodynamic shape with internal piston for a spectacular cast.
Fast, tight rolling swim. Handles very well on both fast and slow retrieves.

## ANTICO 85

Small floating minnow for light spinning enthusiasts. Thanks to its streamlined shape and the optimal distribution of its internal counterweights, it can be cast over great distances. Marked rolling and slight wobbling during lineal retrieval, this can be improved with small jerkings and irregular stops.

## CIMARRON

Swimming fish with a large, powerful lip, perfect for medium and high speed trolling in deeper waters. It's rigged with strong 4X hooks, secured to a reinforced steel rod that goes from one end of its body to the other, designed to withstand the onslaughts of the bullies...

## CAPOTE

This round-bodied, classic popper is specifically designed for fishing leer fish, chovas, sea bass and other predators, although it can also be successfully used for catching large pike. This heavy weight lure features an outstanding casting distance and creates havoc once in the water, with incredible splashing and bubbles in response to the jerking action of the rod, immediately getting the attention of all nearby predators.

## GITANA

This aggressively shaped floating Minnow, with the lip integrated into the head, offers a highly realistic behaviour and swimming action.

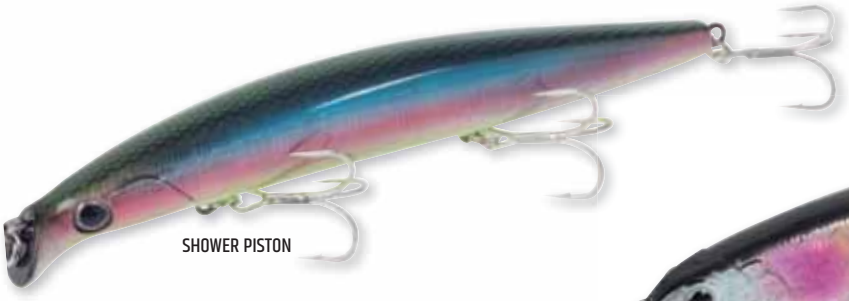
OTIKO

BIG BLOW



SHOWER PISTON

RUSTY-M

## OTIKO

Floating minnow with lip built into the head for a realistic swimming action and extremely attractive rolling. Its internal moving weights allow for long-distance casting, to reach more fishing areas with its nervous and erratic swimming action.

## BIG BLOW

Large floating minnow with lip built into the head for a highly realistic swimming action and extremely attractive rolling. Thanks to its internal moving weights it can be cast over long-distances, to reach more fishing areas with its nervous and erratic swimming action.

## SHOWER PISTON

This powerful sinking jerkbait stands out from the rest. It features an internal piston with return spring to gain many more metres when casting. Thanks to the peculiar shape of its built-in lip, its movement is effective even in line retrieves, turning deadly when you give slight jerks to your rod during line retrieve.

## RUSTY-M

Jerk-minnow with a powerful lip and impressive castability. Its tempting rollwobbling makes it perfect for autumn rock fishing for the large sea bream that come near to the coast.

## FLANAGAN 95F/115F

A nice looking jerkbait that is really easy to cast thanks to its internal steel balls. During line retrieval it has a marked wobb-roll action and its interior balls produce a very attractive sound.
Perfect for stop-and-go retrieves.

## HERMES 100F

Compact minnow with a realistic finish.
Great casting ability and nervous swimming that makes it "grip" the water perfectly in all conditions.

## FACT 80F

Jerk minnow with an elongated nose and oversized tail for a more effective cast. Its linear retrieve swimming will give us a strong rolling accompanied by a slight wobbling.
Its optimal use is to bring it in at high speed and give light touches to the rod tip to simulate a wounded fish.

## CHATTER SEAL 90S

This minnow hybrid with chatter bait will mark the difference with the hardest bass to catch. An essential in your lure box.

BAILON

PAKOTE

POP 65F

POPI 60

## POP 65F

Small popper with an oversized mouth, lethal for those days when we have to fish for bass on the surface. Its characteristic “pop” attracts fish many metres away, splashing and making noise.

## BAILON

Small, round articulated crank with nervous movements, perfect for attacking wary bass near the water edge. Its body shape and articulation give it a swimming action that is sure to attract predators.

## PAKOTE

Who hasn’t got a small sized traditional popper in their Bass lure box? Perfect for those summer days in which the fish are wary of your lures.

## POPI 60

This small popper is capable of moving a good amount of water during its “splashing action”, drawing bass from far away.
At rest, it lies practically horizontal with a slight sinking of its tail, responding immediately to the angler’s jerking.

MAD TAIL 90

PHELMAN

PERLA

## MAD TAIL 90

This jerk's asymmetrical, rotating tail creates a turbulence that drive fish crazy. Working it as a walker, it moves just right, but made even more attractive thanks to the turbulence created by its tail. During line retrievals it slides and turns below the surface, just like a whirlwind.

## PHELMAN

This small minnow with great castability is ideal for enticing even the wariest large fish. After quickly dropping to the water layer where the fish are located, its vibrant, nervous movement rapidly gets the fish to bite.

## PERLA

This small floating minnow features a very enticing rolling action combined with moderate wobbling, capable of bringing the best trout out of hiding. It is also very effective with bass and pike, and even tempts barbel...

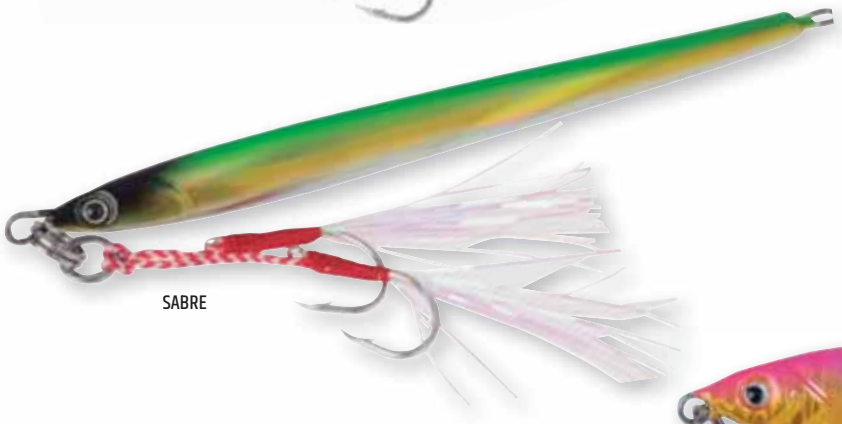
STRIKE

TRAZE



SABRE

CHISPA

BASTION

## STRIKE

This long, flat jig is just perfect for vertical fishing.

## TRAZE

Small jig in the shape of a fish, perfect for casting or vertical fishing. Thanks to its spectacular glitter it is set to be highly attractive to fish. Perfect for prospections in wide areas.

## SABRE

This long, super-fine jig is perfect for deep and light vertical fishing. Thanks to its hydrodynamic shape, it will be quicker to reach the “marks” which other jigs are unable to reach and without drifting away.

## CHISPA

Round-bodied, asymmetrical jig-cast rigged with a double assist hook in the front. Its colors and reflections make it perfect for attracting sea predators in drop shot fishing or casting.

## BASTION

Small asymmetrical jigcast with erratic movements. Rigged with a front double assist and a rear triple hook, for successful bites, time and time again.

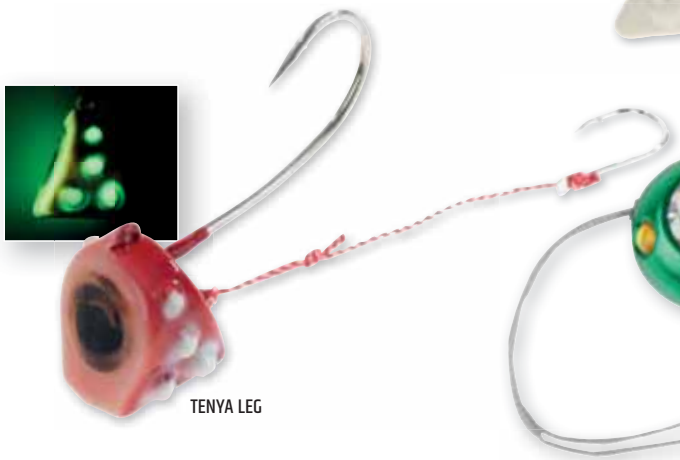
TENYA EYE

TENYA TRIANGLE



TENYA LEG

KABURA

## TENYA EYE NEW!

This powerful tenya, shaped like an octopus leg, is perfect for deep vertical fishing. High-intensity glow finish enhances its attractiveness. In addition to its powerful hook, it is equipped with a ring for mounting an assist hook to ensure a solid hookup when using long baits.

## TENYA LEG NEW!

Octopus leg-shaped tenya with a wedge shape for vertical fishing. Equipped with a main hook and an assist hook underneath to ensure rear hookups. Thanks to its hydrodynamic shape, it sinks quickly and accurately, accompanied by a powerful glow that makes it irresistible in the depths.

## TENYA TRIANGLE NEW!

Pyramid-shaped octopus leg jig, perfect for fast descents and precise movements. Equipped with a main hook and assist hook for rear hooking. High-intensity glow to enhance attractiveness in deep water.

## KABURA

Really effective bait for slow jigging fishing. Compared to traditional jigging, this easy-to-use, comfortable technique means that an increasing number of anglers are going over to slow jigging.

GRUB

ABUS TWIN

DENVER

NIKO

## GRUB

Its light body and fine, touch-sensitive tail give it a highly realistic movement. Highly resistant to pulls from predators.

## DENVER

This extra-soft, scented, vinyl shad minnow perfectly imitates the erratic swimming action of a scared bait fish. Its paddle tail with long stem, which is flat underneath, makes it wiggle frantically, to produce vibrations that are irresistible to predators.

## ABUS TWIN

Featuring the same characteristics as the Abus series, but with a natural forked tail for Finesse fishing. Translucent body and highly realistic finish.

## NIKO

Vinyl minnow with lip and jointed body. Combining the advantages of hard fish and vinyl fish, to create a life-like lure which is highly effective for all types of predators. The realistic colours and holographic eyes make it even more irresistible.
